### **Prelab Questions – Lab 4 2009**

All pre lab questions must be submitted at the beginning of each laboratory session. They are designed to prepare you for the lab so that you can finish the lab on-time. You will receive zero credit for the pre lab questions, if you come to the lab without answering the pre lab questions.

Prelab questions:

- (1) What are the smallest dimensions of the data pits on a DVD disk and on a CDROM disk (look it up in lecture notes or on the web)?
- (2) Name at least two ways how you can increase the amount of information that can be stored on a disk?
