

STATE OF ARIZONA—EMPLOYEE FLU CONSENT 2016

I have read or have had explained to me the information about the influenza (flu) vaccine. I have had a chance to ask questions which were answered to my satisfaction. I understand that I should not receive the vaccine if I: **(1) have ever had a serious allergic reaction to eggs or to the vaccine; (2) have a fever, acute respiratory or other active infection or illness; (3) have a history of Guillain-Barre Syndrome (a severe, paralytic illness).**

The 2016–2017 Quadrivalent vaccine virus strains are: an A/California/7/2009 (H1N1)pdm09-like virus, an A/Hong Kong/4801/2014 (H3N2)-like virus, a B/Brisbane/60/2008-like virus (B/Victoria lineage) and a B/Phuket/3073/2013-like virus (B/Yamagata lineage virus).

The flu vaccine cannot cause the flu because it uses dead viruses. As with any vaccine, flu vaccine may not protect 100% of all susceptible individuals. Most people have no side effects from receiving the flu shot. Serious side effects, such as severe allergic reactions, have rarely been reported for the flu vaccine. I understand the benefits and risks of the vaccine and request that the vaccine be given to me or to the person named below for whom I am authorized to make this request. Healthwaves practices in accordance with the HIPAA regulations as it pertains to privacy practices and patient confidentiality regarding protected health information.
